PESTHOUSE IS NO MORE

TORCH IS APPLIED TO BUILDINGS NEAR CITY HOSPITAL.

Council Expected to Take Early Action on Appropriation Ordinance for New Pesthouse.

The five buildings just west of the City Hospital, which have been used as temporary pesthouses, were burned to the ground at noon yesterday. One small cot- tracks at Thirtieth street and to elevate tage which has been used by the nurses was left standing and will be fumigated and made use of in connection with the hospital.

The council committee on finance has under consideration an ordinance introduced several weeks ago by City Controller Breunig asking for an appropriation for the purchase of a site for a new pesthouse and the construction of the building or buildings. Now that the old pesthouses are out of the way it is thought the Counell will soon take action on the appropriation ordinance. Under the act of the last Legislature the new pesthouse must be located much farther away from residences | they are, to sign the franchise." than the old buildings were. The burning of the old buildings came as the result of complaints from residents in the vicinity of the City Hospital that the buildings were a menace to health. A hose company was present when the torch was applied to the buildings to see that no damage was done to adjoining property.

Rush County Man Presents Museum

with Deformed Viper.

S. C. Speck, of Manila, Rush county, Indiana, was at the Statehouse yesterday and presented State Geologist Blatchley a twoheaded snake of a variety known as the spreading viper. The specimen will be an important addition to the museum, as it will be the only one of its kind. Mr. Blatchley said that he had heard of two-headed snakes, but he had never seen one before, and they are considered very rare. Deformities in snakes are very unusual.

The snake '3 eight inches in length and its two hea are of the same proportion. Mr. Speck s. d that he had found the egg in the sand and had taken it home and placed it in the sun, where it hatched out. The reptile lived only twenty-four hours, It is probably the only specimen of its kind

SAYS THAT CITY EMPLOYE IS COL-LECTING CAMPAIGN FUNDS.

Chairman Logsdon Replies Tersely-Keach's Triumph in Lining Up William F. Moore.

As indicated in yesterday's Journal Democratic City Chairman Keach has worked up a cock-and-bull story to the effect that the Republicans are levying campaign assessments on saloons and the city policemen and firemen and yesterday he had himself interviewed in both his organs, giving an alleged revelation intended to have tremendous effect in the campaign. He charges that Thomas B. Cade, city license inspector, has been one of the mer collecting campaign funds from the saloon

E. D. Logsdon, chairman of the Republican committee, made a very terse but comprehensive reply to Keach's charge, saying simply that the man who reported that an attempt had been made to levy on saloon keepers to contribute to the Republican campaign fund was an unqualified liar. That was all the attention he would pay to the matter, as he regards it as too severe a tax on his time and energy to attempt to reply to the interviews which Keach reels off every fifteen minutes of the

In making his charges against the Republican campaign methods Keach assumed an extremely virtuous air, declaring that no one had been authorized by him to collect funds from saloon keepers and that he did not need money badly enough to secure It from such sources. As the Democratic chairman said this he smiled covertly in a manner that indicated that even he did not take himself seriously when he discoursed on that subject. Chairman Keach had a great triumph

yesterday when William F. Moore, who was one of the anti-machine candidates for the Democratic mayoralty nomination, at last came out of the woods and declared Moore is reported to have said that from this time on he will be found in his shirt sleeves, working for the election of Keach's | tions against him. nee but Mr Moore's frier last night and predicted that he will not wear out any shoes or talk himself hoarse in his energetic campaigning for Holtz-

It has taken almost a month to get this half-hearted indorsement from Mr. Moore and Keach has brought tremendous pressure to bear to secure it. Mr. Moore is a comparatively young man, who expects to be in politics for many years and he was given the alternative of declaring his loyalty to the ticket or incurring the lasting enmity and opposition of the party forces now represented in the Keach ma-chine. Discretion prevailed with him and no one censures him for the position he Keach is still after Robert M. Madden and James F. McCullough, the other candidates who got in the way of the machine. "We

BELIEVE ROAD WILL ACCEPT.

City Officials Think L, C. & L. R. R. Will Take Franchise Offered.

It is the general opinion among the city officials that the Indianapolis, Logansport & Chicago Railroad Company will conclude to accept the franchise offered it Monday by the Board of Public Works. The road objects strenuously to the provisions in the franchise which will require it to depress its them at Geisendorff and Douglass streets. An unusually large number of appeals were heard by the State Board of Tax Commissioners yesterday. Part of the day the board was occupied in listening to the testimony of Sullivan and Greene county people concerning the proposed taxation of mining privileges. It is stated that the board will uphold the Greene county board of review, which placed coal mining privileges on the duplicate.

The appeals yesterday were of various kinds, largely reductions of original assessments. The following appeals were heard: The Bank of Charlestown, Clark county; Simplex Railroad Appliance Company, Paxton Lumber Company, Kauffman & Wolfe, R. T. Downing et al., W. W. Here the three "rushed" at the two women and one of them grabbed a pocketbook, while the others shoved the women into alley. SECOND REPUBLICAN MEMBER OF MARION POLICE BOARD RESIGNS

Governor Durbin Accepts Resignation, but Has Not Announced His Successor.

William McCleery, a Republican member and president of the Marion Metropolitan Police Board, has tendered his resignation, and it was yesterday accepted by the Governor. The name of his successor has not been announced. The first intimation in Marion that McCleery had quit came when he turned over the affairs of the board to A. E. Gibson, the minority member, who is the only one of the original board left since D. C. Reardon resigned by request a few days ago. Gibson will act as chairman until the new appointment is made and the board organized.

Mr. McCleery said he had no reason to give for his action except that as the board was now reorganizing he felt it the proper time to step out, a thing which he had long desired to do, as the work was becoming laborious and required more time than he could devote to it. Mark Swayzee, a prominent merchant was named as the successor of D. C. Rear-

don yesterday. Mr. Reardon's retirement was not voluntary, but there was no in-timation that Mr. McCleery was also to retire, and it is understood that his action came as a surprise to the Governor.

"The Heavenly Manna" was the subject of Mr. Henninger's talk last night, which was given before a large crowd. The manna. food that fell from heaven for the children of Israel every morning, was likened to the spirit of Christ. The bread sustained the wandering Israelites for the day just as the love of Christ will keep those who love Him, he said. The manna was supplied in the wilderness as Jesus is present in this

wilderness of sin, he declared. "The bread in the old days had to be renewed, and so it is with our spiritual blessings," said Mr. Henninger, "they must be renewed each day. The manna had to be gathered in the morning like the fruits of the good life, which are best found at the break of day." The speaker dwelt at length on the fact that each man must work out his own salvation, for the bread for the children of Israel had to be sought by each for himself. Another point made was that each one could only use enough for himself. In concluding the speaker said that if neglected, the bread of life was lost.
